OUR MISSION

We use specialized equipment and skilled personnel to provide exceptional service to infrastructure, industrial, specialty/nuclear, commercial, and environmental markets. Being an industry leader means we will meet or exceed safety, quality, and performance requirements for every client and project.

CHAMPION

INDUSTRIES

INFRASTRUCTURE

From bridges, highways, and transit systems to wastewater facilities and other public works, Champion restores, protects, and extends the life of critical infrastructure through coatings, access, rehabilitation, and specialty services.

INDUSTRIAL

Champion supports manufacturing plants, transportation facilities, defense sites, and other industrial operations with coatings, structural repair, remediation, containment, and facility maintenance designed to protect assets and minimize downtime.

COMMERCIAL

From healthcare facilities and corporate spaces to public buildings and high-traffic environments, Champion delivers flooring, painting, drywall, fireproofing, and decorative finishes with an emphasis on quality and craftsmanship.

SPECIALTY / POWER GENERATION

Champion performs highly specialized work within nuclear facilities, conventional power generation, and other regulated environments, supporting outages, upgrades, maintenance, rehabilitation, decommissioning, and plant restarts.

ENVIRONMENTAL

From emergency response and environmental remediation to hazardous material management, industrial cleaning, and decommissioning, Champion provides turnkey environmental solutions for utilities, construction sites, industrial facilities, and public-sector clients.
