CHAMPION
SPECIALTY SERVICES PROVIDER

EXCEPTIONAL IS OUR STANDARD
SPECIALTY WELDING

Champion Specialty Services brings elite technical expertise to the most complex infrastructure, nuclear, and industrial environments. We don't just meet specifications; we exceed them through rigorous safety protocols and precision craftsmanship. Our capabilities cover the full metallurgical spectrum, seamlessly executing projects on everything from standard carbon and stainless steels to advanced chrome-moly and critical high-temperature superalloys.

SPECIALTY WELDING CAPABILITIES

Welding is our specialty. Champion provides expert welding services using advanced techniques and materials to meet project-specific requirements.

WELDING METHODS

Manual Welding

Automatic Welding

Orbital Welding

METALLURGICAL EXPERTISE

Carbon & Low Alloy Steels

Stainless Steels
(Austenitic, Ferritic, & Duplex)

Chrome-Moly
(including P-11, P-22, P-91, T-23)

Nickel-Based & Exotic Alloys
(Inconel, Monel, Hastelloy)

FABRICATION & FIELD SERVICES

Piping Fabrication & Installation

Code Vessel Repairs (R / NR Stamp)

High-Spec Regulated Environments
(Semiconductor, Nuclear, DOE/DOD)

Our welding approach is tailored to each customer's scope, specifications, and regulatory requirements to ensure long-lasting, high-quality results.

QUALITY STAMPS

R Stamp

NR Stamp

KEY CERTIFICATIONS

- SSPC QP1, QP2, QS1, QP6, QP8
- Minority Business Enterprise / Hispanic American Business Enterprise
- State and municipal certifications across FL, NY, NJ, GA, AL, and Orlando
